The Lake-to-River T⁴ STEM Academy
Teaching Tomorrow’s Teachers Today

Student Openings

Students should apply to the T4 STEM Summer Academy if:
- They want to earn college credit while still in high school
- They will be a Junior or Senior next year
- They are interested in science, technology, engineering, and mathematics
- They are interested in teaching as a profession

Students who complete the Academy will receive:
- A $3,100 scholarship for tuition, books and expenses
- A $200 stipend
- A laptop computer to keep (upon successful completion)
- Transferable college credit in Math and Science courses

What? Where? When?
- Students may choose to take courses through Youngstown State University, Kent State University regional campuses in Ashtabula or Trumbull counties, or Jefferson Community College
- T4 STEM Summer Academy begins June 17th with a supervised two-week residency in the dormitories on the Youngstown State University campus (June 17 – June 29)
- Students continue with classes at their chosen college or university through July
- Students will complete coursework in September/October -- after the start of High School classes

Students who want to apply for limited openings must:
- Write an essay explaining why they are interested in STEM careers, why they want to earn college credit in high school, and what they think about the possibility of teaching as a career
- Supply a letter of recommendation to the T4 STEM Summer Academy from a high school teacher or principal
- Provide a copy of their official high school transcripts
- Complete college admissions procedures

Application Extension: applications will continue to be reviewed on a first-come, first-served basis until May 15.
Applications on the web at www.stemacademy.ysu.edu
All materials must be received by May 15th, 2007.
